

Additional information

Competition center scheme:

Distances

Start – competition centre both days – till 200m.

Competitor numbers will be available for receiving in registration.

Starts for SV8,10 classes in any time till last competitor start.

In long distance refreshment points will be located, which will be marked with cup symbol on map.

In competition centre water butt will be available for washing.

Terrain

Part of roads are overgrown with grass.

After the forest works carried out in the winter season there are a lot of forest tracks in the terrain. Those tracks should be marked on the map with symbol 509 (forest track). The tracks are of different running quality. Those with poor running quality are shown as yellow lines using a local symbol (see the map example) while tracks that are suitable for running are shown with symbol 509.

We recommend using gaiters.

A small part of the map (about 10%) is very detailed that might be difficult to read. Magnifying glass is recommended.
